Subject Index, Volume 116[1]

A

Absorption, nutrient, effect of fiber on, 233
—, of vitamin B-6 in chicken, 107
Accelerated gain and lipid metabolism in beef steers, 2490
N-Acetylneuraminic acid, concentration in rat brain fractions after oral vs. intraperitoneal administration, 881
Acid excretion, net, 388
Acknowledgment, 2321
Adenosine 3',5' cyclic monophosphate, 446
Adenylate cyclase in rat salivary glands, effect of essential fatty acid deficiency on, 1620
Adipocyte precursors, role in obesity induced by overfeeding in suckling rats, 524
Adipocytes from rats fed a high-fat diet, lipolytic responses of, 1984
Adipose tissue, brown (BAT), lipoprotein lipase activity in, 429
— —, cellularity of, 290
Adriamycin toxicity in rats, effect of selenium deficiency on, 2453
Aging, mouse, 350
—, —, retardation by dietary restriction, 641
Alcoholic rats, dose-dependent lipotropic effect of carnitine in, 2263
Amino acid analogues, effect of feeding on tissue amino acids in rats, 1464
— — digestibilities in vegetable proteins fed to rats, 1172
— —, levels in mammary gland, liver, muscle and serum of rats, 376
— — profiles in rat brain and serum, prediction of, 1667
— — utilization by rats fed diets of equal chemical score, 969
Amino acids, branched-chain, hepatic uptake in fed rats, 2201
— — as ligands in zinc intestinal absorption in rats, 2171
— —, ^{15}N-labeled nonessential, and measurement of human whole-body protein synthesis rates, 1651
— —, sulfur, requirement for in infancy, 1405
— —, —, in metabolic response to PCB feeding in rats, 1660
Ammonia metabolism in ferrets fed an arginine-free diet, 545
— production and excretion in chickens fed low or high protein diet, 2378
Amylomaize starch effects on mineral metabolism in the rat, modification by the microflora, 991
Angiotensin II (AII), 128
Angiotensin-converting enzyme (ACE), 128
Animal fat, Dumas and the controversy about the origin of, 491
Anion, effect of substitution on urinary calcium excretion, 388
Apolipoprotein E in rhesus monkeys, modulation by dietary fat and cholesterol, 1611
Arachidonic acid, 198
Arginine, antagonism with lysine, 36
—, creatine synthesis and, 36
— deficiency, dietary, and ammonia metabolism in ferrets, 545
— formation in rainbow trout, 1640
—, metabolism of, 36
—, needs, physiological state and usual diets and, 36
—, trauma recovery and, 36
Arginine-vasopressin, urinary excretion of in EFA-deficient rats, 198
Ascorbic acid, effect of on rats and guinea pigs exposed to PCBs, 98
— —, interaction with dietary carbohydrate and copper in development of copper deficiency in rats, 802
— — requirement for induction of drug-metabolizing enzymes in OD rat, 2278
— — status of female guinea pigs, estrogen and progestogen effects on, 570
Aspartame, oral or parenteral, 356
Azo dye feeding, effects on vitamin B-6 metabolism and pyridoxal 5'-phosphate-binding proteins in rat liver, 588
Azotemic rats, effect of vitamin B-6 deficiency on plasma amino acid levels in, 1865

B

Bacteria, fecal in humans, 455
Balance studies in humans, interpretation of, issues and opinions, 2061
Basal metabolic rate in adult men, effect of low zinc intakes on, 1045
Beagles, pregnant, interactive effects of dietary protein and ethanol intake on, 689
Bean diets and rat endogenous nitrogen excretion, 2387
B-cell responses, murine, modulation by dietary fatty acids, 1830
Beef, cooked, iron absorption from by humans, 1720
Beef steers, effects of accelerated gain and growth hormone on lipid metabolism in, 2490
BHE rats, dietary carbohydrate and hepatic gluconeogenesis in, 1193
— —, dietary fat type and gluconeogenesis in isolated hepatocytes from, 1156
— —, diet effects on membrane phospholipid fatty acids and mitochondrial function in, 1148
Bile, 107
Bile-pancreatic secretion, effect of dietary proteins on, 265
Bioassay, rat, 87
Biographical Sketch, Wendell H. Griffith (1895–1968), 2327
— —, Samuel Lepovsky (1899–1984), 331
— —, Harry Morton Vars (1903–1983), 711

[1]Page S1 refers to Evaluation of Health Aspects of Sugars Contained in Carbohydrate Sweeteners. *J. Nutr.* 116 (11S): S1–S216, 1986.

— —, John B. Youmans (1893–1979), 21
Biotechnology, 177
Biotin, effect of addition to purified reference diet for weanling rats, 1777
—, intestinal absorption in the rat, 1266
Blood flow, uteroplacental and maternal malnutrition and, 412
— lipids, effect of pectin on in minipigs, 70
Body composition in growing rats, isolated zinc deficiency effects on, 610
— — of lactating rats, diet effects on, 1529
— —, organ size, and energy utilization of rats, influence of previous nutrition, 2525
— — of rats recovering from overfeeding, underfeeding or starvation, 2536
— size effects on glucose metabolism and nitrogen balance in cattle, 2229
Bone, mechanical properties in growing swine, predictors of, 2155
Book Review, *Absorption and Malabsorption of Mineral Nutrients (Current Topics in Nutrition and Diseases, vol. 12)*, 698
— —, *Annual Review of Nutrition (vol. 5)*, 1343
— —, *Drug-Induced Nutritional Deficiencies*, 2311

— —, *Nutrition of Humans and Selected Animal Species*, 2554
— —, *Nutrition, Immunity and Illness in the Elderly*, 1576
— —, *Nutrition in Oral Health and Disease*, 1853
— —, *Nutritional Pathology: Pathobiochemistry of Dietary Imbalance*, 2553
— —, *Nutritional Prevention of Cardiovascular Disease*, 169
— —, *Parenteral Nutrition (Clinical Nutrition, vol. 2)*, 2312
— —, *Scientific Evidence for Dietary Targets in Europe*, 2060
— —, *Taurine Biological Actions and Clinical Perspectives*, 2555
Bovine and ovine adipose tissues, lipogenesis and glucose metabolism in, 1279
Bradykinin, 128
Brain, mouse, 350
— phosphoryl-serine levels in rats, alteration by undernutrition during suckling, 2303
—, rat, 356
Breast cancer initiation in rats, effects of dietary protein, fat and energy intake on, 2290
Burn injury, in rats, 149

C

Cadmium, dietary, iron bioavailability and, 281
Caffeine, influence of on metabolism, retention and excretion of various minerals, 273
— and nutritional factors, interrelation in fetal growth and fetal bone development in newborn rats, 633
Calcium absorption in the rat, effect of prevention of coprophagy on, 1204
— balance in prednisolone-treated rats consuming a low calcium diet, effects of NaCl on, 1037
—, effect of caffeine on metabolism of, 273
— and magnesium-deficient rats, effects of calcium, fluoride and magnesium supplementation on tissue mineralization in, 1018
—, metabolism of in rats, 135
— and osteoporosis in humans, issues and opinions, 2316
—, urinary excretion of and anion substitution, 388
Calcium-regulating hormones, vitamin A effects on in rats, 578
Calves, dietary nickel and protein for, 1873
Cancer, prevention of and selenium compounds, 170
Candida albicans infection in selenium-deficient mice, 816
Canola, 233
Capasicin, effects on lipid metabolism in lard-fed rats, 1272
Carbohydrate, dietary, and copper and iron metabolism in copper-deficient rat, 2443
—, —, effects on copper-67 absorption and excretion by the rat, 625
—, —, and hepatic gluconeogenesis in BHE rats, 1193
—, —, interaction with ascorbic acid and copper in development of copper deficiency in rats, 802
—, high dietary, effect on cyclic nucleotides in intestinal mucosa of developing rats, 887
—, low dietary, effects on sleep behavior and pulmonary functions in adult humans, 2393
—, — —, potentiation of antifertility effects of 5-thio-D-glucose in male rats, 900
—, — —, during pregnancy, effect on fetal growth in rats, 1922
—, — —, — —, effect on postnatal survival of rat pups, 1938
— sweeteners, SI
Carboxypeptidase, effect of proteins on secretion of in rats, 265
Cardiac lipids in rats, dietary fish oil effects on, 514
Carnitine biosynthesis in growing rat, regulation by ϵ-*N*-trimethyllysine availability, 751
—, dose-dependent lipotropic effect in chronic alcoholic rats, 2263
— metabolism during starvation in lean and obese Zucker rats, 668
—, question of its essentiality for humans, 704
— supplementation, postweaning, in iron-deficient rats, 2190
Carnosine, muscle, in adult mice, letter, 924, 925
β-Carotene utilization by chicks, effects of purified dietary fiber sources on, 2415
Carotenoids and immune responses in the rat, 2254
—, vitamin A and cancer, issues and opinions, 1127
Casein, 265, 343
Catalase, 204
Catecholamine, metabolism of in rat brain, 356
Catecholamines, 412
—, plasma, in magnesium-deficient weanling rats, 1896
Cats, maternal taurine deficiency in, effects on mother and offspring, 655
Cattle, body size effects on glucose metabolism and nitrogen balance in, 2229
Cecum, 107
—, absorption of vitamin B-6 in, 107

Cellulose, effect of addition to purified reference diet for weanling rats, 1777
Cereal grains, gamma irradiated, nutritional value of for chicks, 560
Channel catfish, protein and energy requirements for growth, 2121
— —, selenium and vitamin E interrelationships in nutrition of, 1061
Chicken (*Gallus domesticus*), 107
Chickens fed low or high protein diet, ammonia production and excretion in, 2378
Chicks, absorption of selenium compounds in, 142
—, dietary fiber sources and β-carotene utilization in, 2415
—, — methionine and choline effects on lead toxicity in, 1561
— fed corn-soy and casein diets, manganese absorption in, 1747
—, growing, response to energy intake and dietary components, 1756
—, lung of, 252
—, nutritional value of gamma-irradiated cereal grains for, 560
—, selenium-dependent glutathione peroxidase inhibitors and prooxidant toxicity in, 1726
Children, fermented sorghum as weaning food for, 978
Chloride, effect on urinary calcium excretion, 388
—, low dietary, enhancement of fluoride retention in the rat, 1752
— as sodium chloride, effects on fluoride bioavailability in weanling rats, 618
Cholesterogenesis in rats, effects of excess dietary tyrosine or xenobiotics on, 726
Cholesterol absorption in rats, effect of marginal zinc deficiency, 2363
— and coronary heart disease, issues and opinions, 1578
— distribution in pigs, effects of diet on, 2086
— levels of rat tissues after an oral dose of vitamin E, 1631
Cholesterol-fat content of diet, interaction with dietary protein in genetically lean and obese pigs, 1116
Choline deficiency, effect on lung phospholipid concentrations in the rat, 936
— in human and bovine milk and infant formula, 50
— and lead toxicity in chicks, 1561
Chromatography, high performance liquid, 87
Circadian rhythms in ad libitum- and meal-fed lean and obese rats, 1798
— — and life span of mice, meal-timing and, 2244
Cockatiel, effects of dietary water-solids composition and protein content on growth of, 552
Coffee intake during pregnancy and lactation in rats, effects on trace element status of pups, 1326
Columbinic acid, 198
Commentary, expressing the variability in results of metabolizable energy assays, 1385
—, nutrition in medical education, 341
—, recommendations of an NIH Consensus Conference on the relationship between LDL-cholesterol and coronary artery disease, 1143
—, social responsibilities of nutritionists, 714
Conference on the Health Effects of Polyunsaturated Fatty Acids in Seafoods, summary, 2350
Contraceptives, oral and vitamin B-6, 475
Copper absorption, gastric vs. intestinal, by rats, 2219
— balance in rats fed varying levels of dietary copper, 1028
— deficiency development in rats, high dietary iron and sucrose effects on, 1225
— —, effects of on rat skeleton, 135
—, — of and lung development in chicks, 252
— — in rats, interaction of dietary carbohydrate, ascorbic acid and copper in development of, 802
— deficiency, induced by hypercholesterolemia, effects on rat lipoproteins, 1735
Copper-deficient mice, lipid and fatty acid composition of organs from, 1248
— rats, culture of whole rat embryos in serum from, 2424
— —, influence of sucrose and starch on anemia development in, 2443
Copper, effect of on selenium utilization, 403
Copper-67 absorption and excretion by rats, effects of fructose feeding compared to those of starch feeding, 625
—, intraperitoneal, tissue distribution and excretion in rats fed fructose or starch, 831
Coprophagy, prevention of, and fiber digestibility and calcium absorption in the rat, 1204
Corn products, browned and unbrowned, and zinc absorption in humans, 795
Corticosterone as modulator of sucrase activity in artificially reared rat pups, 1334
Cows, dairy, effect of diet on glucose metabolism in, 839
— treated with fluorinated analogues of 1,25-dihydroxycholecalciferol, bone resorption, renal function, and mineral status of, 1500
Creatine metabolism in pyridoxine-deficient rat, 2403
—, muscle content of, in nicotinamide-treated rats, effects of dietary supplements, 2409
— synthesis, arginine and, 36
Cyclic feeding and lipogenesis in rats, 733
— nucleotides, effect of age and diet on concentrations in intestinal mucosa of developing rats, 887
Cystine, dietary, effect on methionine metabolism in rat liver, 985
Cytochrome *c* oxidase, methanethiol and methionine toxicity and, 204

D

Dehydroepiandrosterone (DHEA), liver metabolites and, 304
— acetate, metabolic effects in rats, 1977
Diabetes, in rats, influence of diet on, 461
Diabetic rats, inhibition of liver lipogenesis by dietary polyunsaturated fats, 1511
Diet, chemically defined, water-soluble, for germfree mice, adequacy through successive generations, 1949
—, effect on protein utilization and energy intake in diabetic rats, 461
—, high fat, effects on rat adipocyte lipolysis, 1984
—, high-fiber and hepatic metabolism in rats, 77
—, predominantly vegetable, ability to satisfy protein-energy needs of young adult males, 865
Dietary restriction, effects on longevity, cancer, immunity and lifetime energy intake in mice, 641
— standards, 478

Diets of equal chemical score, response of rats to, 969
—, purified reference, for weanling rats, 1777
—, vegetable cereal, history of promotion of, 1355
—, very low calorie, effectiveness and safety of, 918
Digestibility, in pigs, 242
Dihydropteridine reductase activities in chronically uremic rats, 1298
7,12-Dimethylbenz[*a*]anthracene-induced breast cancer in rats, diet effects on, 2290
Disaccharide effect, absence in adult female rats, 1555
Diuretics, 273
Drug metabolism in OD rat, ascorbic acid requirement for, 2278
Dumas, Jean-Baptiste, and the controversy about the origin of animal fat, 491

E

Edema, nutritional, in rat model of protein deficiency, effect of dietary sodium and potassium on, 1209
Editorial announcement, 1, 175
Egg white, 265
Elastin-collagen cross-linking, 252
Elderly and young men, zinc absorption and retention in, 1239
Electrolyte metabolism in rats fed large amounts of galactitol, mannitol, and xylitol, 599
Electrolytes, 273
Embryos, whole rat, cultured on serum from zinc- and copper-deficient rats, 2424
Energy balance, effect of growth hormone on in heifers, 157
— — of lactating rats, diet effects on, 1519
— expenditure, reduced, in young Zucker rats, 2478
— intake and diet composition, effects in growing chicks, 1756
— —, influence of diet on in diabetic rats, 461
—, maintenance requirement in mice, 419
—, net efficiency in mice, 419
— utilization during realimentation in rats, 2525
— — in food-restricted female rats, 2000
Enteric hyperoxaluria, 455
Enterokinase inhibitor from red kidney bean, hyperplastic effect on small intestine of rats, 873
Enzymes, hepatic, gender differences in dietary induction in the rat, 1547
—, lipogenic, 190, 290
Epidemiologic studies in nutrition, utility and limitations, issues and opinions, 2557
Epidermal growth factor action in rat acinar cells, dietary modulation of, 1306
Errata, 328
Erratum, 1864
Erythrocyte proteins, rat, chemical forms of selenium in, 1711
— —, —, dietary selenium deposition in, 1701
Estrogen, effects on ascorbic acid status of female guinea pigs fed a low ascorbic acid diet, 570
Ethanol ingestion by rats cumulative folate loss after, 1316
—, interactive effects with dietary protein on pregnant beagles, 689
Euthanasia of rats, issues and opinions, 1859
Evaluation of health aspects of sugars contained in carbohydrate sweeteners, S1
Ewes, fasted, interorgan fluxes in, 2516
Eyes, bleached in rats, 121

F

Fasted and refed rats, muscle redox state and proteolysis in, 2028
Fasting, effect on interorgan fluxes in ewes, 2516
Fat, calories and cancer, issues and opinions, 1130
— and cholesterol, dietary, effect on apolipoprotein in rhesus monkeys, 1611
—, dietary, and carcinogenesis, issues and opinions, 2313
—, —, effect of amount and type on rat pancreatic lipase activity, 892
—, —, — on sodium transport in rat erythrocytes and thymocytes, 1390
—, —, and fatty acid utilization by rat myocardial tissue, 2096
—, —, type of, effects on gluconeogenesis in hepatocytes from BHE rats, 1156
Fatty acid deficiency, 198
— — oxidation, capacity for in riboflavin-deficient rats, 1992
— — synthesis, 190
— — utilization by rat myocardial tissue, effect of dietary fat on, 2096
— acids, dietary, effect on murine B-cell responses, 1830
— —, — saturated, effect on hormone-sensitive lipolysis in rat adipocytes, 1088
— —, — —, — — intracellular free fatty acids in rats, 1095
— —, essential, composition in organs from copper-deficient mice, 1248
— —, —, deficiency in BHE rats, 1148
— —, —, effect of deficiency on adenylate cyclase in rat salivary glands, 1620
— —, —, in newborn kid, effect of dietary protected lipids on, 1473
— —, short-chain, in germfree mice and rats, 1772
— —, volatile, effect on rat liver metabolism, 77
— —, —, in food-restricted and starved/refed rats, 1694
Feces, volume and density of, 164
Feeding, intravenous vs. intragastric, and lipoprotein composition in the rat, 2106
Ferrets, effect of arginine-free diet on ammonia metabolism in, 545
Ferric hydroxide polymers, absorption of iron from, 259
Fetal growth in rats, effect of carbohydrate-deficient diet during pregnancy, 1922
— — retardation in the rat, effect of postnatal nutrition on postnatal growth in, 1080
Fiber, dietary, 164
—, —, bioavailability of minerals, protein and lipids and, 233
—, —, effects on digestive proteolytic enzymes in the rat, 786
—, —, influence of on digestibility of dietary components, 242
—, —, intestinal permeability and, 223
—, —, and iron retention by rat intestine in vivo, 1007
—, —, purified forms of and chick utilization of β-carotene, 2415
—, —, sugar-beet pulp, 242
—, —, wheat bran, 242
—, —, and zinc and copper absorption and tissue contents in rats, 999

Fiber, from hard red wheat bran, effects on fecal composition and transit time in healthy young women, 778
—, hydrophilic sources of in dry diets, 47
Fish oils, dietary, effects on rat cardiac lipids and fatty acid composition, 514
— —, nutritional and physiological effects of, issues and opinions, 1857
Fluoride bioavailability in weanling rats fed different levels of dietary sodium chloride, 618
— retention enhancement by low dietary chloride without chloride deficiency in the rat, 1752
Fluorinated analogues of 1,25-dihydroxycholecalciferol, effects in cows, 1500
Folate, excess excretion in rats chronically treated with ethanol, 1316
Food intake, restriction-refeeding, 290
— —, starvation, 446
Food-restricted female rats, energy utilization in, 2000
Food restriction, mixed-function oxidase system response to in adult male and female rats, 682
— —/refeeding, response of adult female rats, 1489
— — and volatile fatty acids in rats, 1694
Formula, infant, 50
Free radical production in rat lung microsomes, stimulation by dietary zinc deficiency, 1054
Fructose, as main dietary carbohydrate, and distribution of copper-67 in rats, 831
— 2,6-bisphosphate, 446

G

Gamma irradiation of cereal grains for chick diets, effect on chick body weight gain, 560
Gastric and intestinal absorption of copper-64 in rats, 2219
Gender differences in rat hepatic enzymes, 1547
Gene expression, nutrition and, 177
—, major, 419
Gerbil, protein effects on plasma lipids and hormone concentrations in, 1165
Germfree mice, adequacy of chemically defined liquid diet for successive generations of, 1949
— — and rats, short-chain fatty acids in, 1772
Glucagon action in rat liver plasma membranes, effect of dietary protein level, 1810
Glucose effects on protein metabolism in pigs, 1902
—, high-fiber diet and, 77
—, kinetics of in rats, 149
— metabolism in dairy cows fed diets varying in forage content, 839
Glucose-6-phosphate dehydrogenase, 304
Glutathione peroxidase, 204, 350
— reductase, 204
